# Wakeup Service

A Wakeup Call Management Solution for Hotels

Efficiency and Reliability Our application automates the process of scheduling and managing wakeup calls, eliminating human error and ensuring that every guest receives their call on time

Ease of Use With a user-friendly interface, Wakeup Service is easy to use for the hotel staff and front-office. It's as simple as setting an alarm on a smartphone.

Integration Our application seamlessly integrates with existing PBX, making it a hassle-free addition to your hotel's tech stack.
Wakeup Service

Wakeup Records

Wakeup Service keeps track of all wakeup records for the past 30 days. The records are kept in one file per day and is exported in csv format.

Perfect for use in MS Excel.
